There are morning people. And there are others who decidedly are not morning people. Although the gulf between these two types is huge, we think all can agree that our Breakfast Blend is one fine coffee. It's a gathering of Latin American beans chosen for their sparkling flavour. Kind of like orange juice and the way it dances on your tongue, this coffee has a get-up-and-going charge to it. But we roast these beans a little lighter than we usually do. So the flavour is lighter-bodied and milder – just a nudge really. What you get is a nice, clean taste with a sunny disposition. Whether your cup is half full or half empty, it's all good.

## Caffè Verona®

**Price: 16.95**

If Cupid used coffee instead of arrows, this blend might well be his weapon of choice. Caffè Verona® is a seductive blend of beans from Latin America and Indonesia, with a gentle touch of Italian Roast lending depth, soul and sweetness. Because this delectable combination pairs so very well with chocolate, it has become a Valentine's Day favourite – and the coffee we most associate with romance. Bella, Bella! P.S.: Literature lovers out there will recognize Verona as the city where Shakespeare set Romeo and Juliet. Although the play ends in tragedy, we'd like you to know that every cup of this coffee has a happy ending.
