Lynch Supply Company

Introduction

"SERVICE YOUR PROFESSION OUR PROMISE"

Founded in 1932, Lynch Supply Company, Inc. has earned a reputation for being a leader in the funeral and cemetery supply fields. At Lynch, you will find same-day shipping, knowledgeable and friendly customer care experts, and a 91-year commitment to you and the families you serve. Lynch Supply remains one of the oldest, family owned and independent suppliers to the funeral & cemetery professions today & has been on the world wide web for over 15 years. Located just 40 minutes southeast of Tulsa, our strong small town work ethic assures you of people who really care.

We carry the products and give you the service you require. We provide sales & service for items you need and use on a daily basis. Products for the Chapel & Selection Room, Embalming Fluids & Sundries, Floral Equipment & Supplies, Funeral Service Items, Infant Caskets, Prep Room Equipment & Supplies, Removal Equipment, Cremation Urns & Supplies and thousands of more.

Lynch Supply is also an Authorized Warranty and Repair Facility for both Duotronic and Portiboy machines. We carry and service the complete line of Duotronic and Portiboy embalming machines.

Having a web store for over 15 years, we understand the importance of providing our web customers with a shopping experience that is second to none. Thousands of the most sought-after products, fair pricing, same day shipping, and the most secure payment options to guarantee you a seamless and hassle-free shopping experience.

**CHFA3028
ESCO CIRTAN ARTERIAL FLUID -18
INDEX**

Formulated to reproduce the modern outdoor living complexions of today, this arterial facilitates a more golden color than previously possible. The tone created by Cirtan are actually superimposed upon the natural pinks of the tissue to imitate the effects of the sun on the skin. An exceptional fluid to be used for the darker skin tones. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFC1826
GOLD CREST ACT ODORLESS
CAVITY FLUID**

Gold Crest ACT odorless cavity fluid works effectively, quickly and quietly. No trace of fumes or unpleasant chemical odor. Works great as a reliable booster for your arterial fluid. Excellent when bleaching is needed arterially or externally. Can be used as dependable Jaundice treatment. Case of 24 Pints.

[Click Here To Download SDS Sheet](#)

**CHFC3008
ESCO EPIC CAVITY FLUID -26 INDEX**

Epic is absorbed and combines with tissue so rapidly and completely, that no cavity fluid can be recovered with respiration 8 hours following the initial operation. It will produce the driest and most complete saturation of any cavity chemical available. Undiluted Epic Cavity will ensure against enzymatic change, fermentation, purge or tissue gas. It is an excellent topical bleaching pack for mild discolorations and a preserving bleach when hypodermically injected. The odor is similar to traditional cavity fluids, however penetration is unmatched by any other. For the technician from the old school who feels that cavity fluid must sting the eyes and burn the nasal passages, Epic Cavity is your product. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFA1802
GOLD CREST REX 36 ARTERIAL
FLUID**

Compounded like a prescription, high-strength REX 36 is King of the arterials. No adverse side effects as other powerful fluids often cause. Controlled reaction, full drainage and flawless cosmetic results. Versatile REX 36 firms frozen and edematous bodies. Dehydration free even in normal cases. 24 Pints per Case.

[Click Here To Download SDS Sheet](#)

**CHFD3020
ESCO CALSEC DRAINAGE
CHEMICAL**

Combines ease of use, Triple-Base Preservatives, and results unmatched by any other product. CALSEC is acknowledged as the best in the industry, even by the competition, and offers the flexibility to be used as a pre-injection, co-injection, or Jaundice chemical. Exclusive ESCO Incarnadining agents and cosmetic factors provide a tracer stain which completely penetrates the tissue and allows a uniform cosmetic life-like appearance. Technicians that routinely use CALSEC report, Multiple point injections, even in the difficult cases, is dramatically reduced. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFA3011
ESCO FREEFORM NON-
FORMALDEHYDE ARTERIAL FLUID**

Freeform is an environmentally safe non-formaldehyde, non-volatile, practitioner friendly capillary wash developed to temporarily control post mortem changes. The flushing controls the rate of natural degrading of the body. Freeform clears discolorations and neutralizes the residuals of medications allowing time for limited visitations in a natural state. Freeform is temporarily bacterialstatic to microbial decomposers associated with Green burials and the natural decomposition process. The body will then recycle naturally. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**HEX21834
HEXAPHENE MA-22 GEL**

The absolute best for treating viscera, swelling and surface embalming. Gel formula stays where you need it. 2.5 lbs. plastic container.

[Click Here To Download SDS Sheet](#)

**COLOR500
ESCO PINK FLUID COLOR**

Embalmers Supply Pink fluid color is a concentrated dye additive to be used when additional color is desired during arterial injection. While the Pink dye can serve as a tracer dye to indicate distribution of fluid throughout the body, it is also a staining system. The resultant pink color will be retained by the tissue over a period of time. Pink fluid color is compatible with any arterial fluid. Plastic Pint Bottle.

ESCO POWER PLAY CAVITY FLUID
-28 INDEX**

Introduced to the lower 48 from the ESCO Canadian operations, Power Play Cavity is an economically priced fluid with outstanding preservative qualities. Viscera and contents are totally fixated and firmed with minimum treatment. The osmotic penetration is unparalleled to any other cavity fluid in its price range. Suited for the firm that is influenced by cost, but equally concerned about quality, Power Play is the answer. 24 pints per case.

**CHFA3045
ESCO L.E.A.F. PLUS ARTERIAL
FLUID -25 INDEX**

L.E.A.F. is a lanolin arterial that is so chemically balanced that it ensures soft, natural skin texture, pliable joints and no dehydration. Even if used over-strength. Color is slight by adding ESCO incarnadining agents. Addition of ESCO fluid color will intensify the hue to suit the case. L.E.A.F. PLUS produces like results as its older brother, but in much less time. By increasing the index of the basic L.E.A.F. the embalmer is able to obtain the desired pliable joints, soft skin textures, and life-like hues, in about half the time required for most lanolin arterials. 24 pints per case.

**CHFA3005
ESCO EPIC ARTERIAL FLUID -30
INDEX**

Similar in formulation to Epic 18, a decided firmness and rigidity is achieved in much less time. The color developed is natural and diffuses to all surfaces. By inactivating enzymes, second day changes in firmness is non-existent and ensures safety of that case which requires prolonged delay to disposition. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFD1818
GOLD CREST
HEXYETHYLPHENOFORM**

The most resistant type of bacteria are destroyed on contact with Hexyethylphenoform. Any case of known contagious disease or one evidencing a plus condition, should be treated with Hexyethylphenoform. Treatment may be by spray, pack, or by hypodermic injection. Three powerful, but harmless gases give this product exceptional deodorizing and preservation power. The odor is neutralized quickly; the source corrected. Hexyethylphenoform is widely used as an autopsy cavity fluid, an external embalming fluid, an external bleacher, for the destruction of body vermin, etc. It is an outstanding multipurpose fluid. Packed 24 16 oz bottles per case.

**CHFD3025
ESCO EDEMA-PRO CO-INJECTION
FLUID**

A revolutionary formulation developed to be selective in its action. Eliminates edematous conditions within specific areas of the body. Normally used as a Co-Injection chemical. 24 pints per case.

**CHFD3000
ESCO EPIC DRAINAGE CHEMICAL**

Unmatched in penetration and solvent power on drugs, the triple-base formulation makes EPIC DRAINAGE equal to the best Arterial fluid as a preservative. When used as directed, the outstanding ability to remove clotted and sludged blood results in unexpected drainage. It is often used as a non-formaldehyde preservative in Jaundice cases which clears BILIRUBIN and avoids BILI-VERDIN discoloration. 24 pints per case.

[Click Here To Download SDS Sheet](#)

CHFA3054
ESCO COMPO HARD ARTERIAL
FLUID -28 INDEX

Designed to produce an extremely rigid firmness with maximum preservation in even the most difficult case. Edematous, gangrenous or cancerous tissue will attain complete saturation. Cosmetic effect is achieved by adding color to the desired degree. 24 pints per case.

[Click Here To Download SDS Sheet](#)

CHFC3058
ESCO COMPO CAVITY FLUID -26
INDEX

The economical cavity chemical with optimum penetrating power. It works well when hypodermically injected to tissue devoid of circulation and attains moderate bleaching effect when used as a pack. A single based fluid, Compo Cavity is the fluid of choice for the technician looking for the thrifty, worry-free chemical. 24 pints per case.

[Click Here To Download SDS Sheet](#)

CHFA3089
ESCO INSTANT ARTERIAL FLUID -35
INDEX

The extreme firming arterial fluid of the ESCO family of fluids. Utilized on the problem case, i.e.; autopsied, frozen, electrocuted, or decomposed case, Instant produces immediate results in saturation, penetration and firming of the tissue. It produces excellent results in cases with a swarthy, or darker complexion. It is the preferred fluid for difficult cases in the African-American community. Used as a booster with other arterials, Instant ensures a rapid firming of the tissues. 24 pints per case.

[Click Here To Download SDS Sheet](#)

CHFC2998
ESCO POLAR CAVITY FLUID -18
INDEX

A cavity chemical so potent and penetrating, an entirely new concept in grading had to be developed. Equivalent to a formaldehyde index of 53, Polar has remarkable penetration and immediate fixation properties. An exceptional quality is its low fume, pleasant aroma which allows the embalmer an unexpected agreeable ambient environment in the prep room. Undeniably, the finest cavity chemical ever produced, it is the cavity chemical of choice in the high case volume prep rooms across the nation. 24 pints per case.

**CHFD3023
ESCO SOFNER DRAINAGE
CHEMICAL**

The original and still most powerful blood liquefying and mineral sequestering agent in the industry. Sequesters Calcium and other metallic ions which cause clotting. Sofner will eliminate all problems of astringency, distribution, clot formation, streaking, or splotching. Used on arteriosclerotic cases, drainage will be more than expected. Thrombosis and apoplexy cases will embalm as easily as the normal case. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFA3014
ESCO MING ARTERIAL FLUID -18
INDEX**

Derived its name from the Ming Dynasty of ancient China known for its fine translucent porcelain ware. It is ideal for use on children, women, the aged, and all cases where the skin is particularly delicate. The formulation allows a moderate firmness with no dehydration and a mild cosmetic effect. The preservation, penetration, and saturation is so thorough that many firms have incorporated Ming as their standard arterial. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFA3004
ESCO EPIC ARTERIAL FLUID -25
INDEX**

Similar in formulation to Epic 18, a decided firmness and rigidity is achieved in much less time. The color developed is natural and diffuses to all surfaces. By inactivating enzymes, second day changes in firmness is non-existent and ensures safety of that case which requires prolonged delay to disposition. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFC3056
ESCO COMPO FUMELESS CAVITY
FLUID -4 INDEX**

An extremely low content formaldehyde cavity fluid which is non-irritating to the nose and throat membranes of the embalmer, yet preeminent in its preservative power. Caution, should be used however, to insure that contact with living skin is avoided. Latex, or Nitrile gloves should always be worn when Compo N/I is used. It is a most effective cavity chemical, economically priced for the formaldehyde sensitive technician. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**COLOR501
ESCO TAN FLUID COLOR**

Embalmers Supply Tan fluid color is a concentrated dye additive to be used when additional color is desired during arterial injection. While the Tan dye can serve as a tracer dye to indicate distribution of fluid throughout the body, it is also a staining system. The resultant tan color will be retained by the tissue over a period of time. Tan fluid color is compatible with any arterial fluid. Plastic Pint Bottle.

[Click Here To Download SDS Sheet](#)

**CHFA3044
ESCO L.E.A.F. ARTERIAL FLUID -20
INDEX**

L.E.A.F. is a lanolin arterial that is so chemically balanced that it ensures soft, natural skin texture, pliable joints and no dehydration even if used over-strength. Color is slight by adding ESCO incarnadining agents. Addition of ESCO fluid color will intensify the hue to suit the case. L.E.A.F. PLUS produces like results as its older brother, but in much less time. By increasing the index of the basic L.E.A.F. the embalmer is able to obtain the desired pliable joints, soft skin textures, and life-like hues, in about half the time required for most lanolin arterials. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFA3002
ESCO EPIC ARTERIAL FLUID -18
INDEX**

Penetration, diffusion, and saturation of Epic are extremely efficient. Minimized dehydration is achieved by a chemical balance of lanolin and incorporated materials and ensures pliable joints; excellent skin textures, and prevents the embrittlement of collagen. Cosmetic color is natural with a moderate firmness of tissue. Inclusion of Bacterin and Destrin in the triple-based formulation guarantees a safeguard equaled by no other arterial. By adding a predominating Tan color, Epic Tan 18 offers a more golden, or out of doors complexion. 24 pints per case.

CHFA3041
ESCO LITHOL C/R ARTERIAL FLUID
-32 INDEX

A specialized arterial fluid for the extreme embalming case. Formulated for autopsied, electrocuted, frozen, or any case which is difficult to firm, Lithol is the essential fluid for every embalming room. It has fast, complete saturation and penetration of the tissue and is compatible with any other fluid. Lithol C/R imparts a more vivid color and is preferred by the embalmer, which desires cosmetic effect from arterial injection, rather than external application. This arterial fluid produces a desired firmness result and is guaranteed to yield a case free of post-embalming concerns. As with all difficult cases ESCO recommends a pre-injection of Drainage Chemical and Sofner for systemic clearance of stain and discoloration. 24 pints per case.

[Click Here To Download SDS Sheet](#)

CHFE3010
ESCO EPIC CONDITIONER

Triple-base Humectant, Plasticizer, Anti-Dehydrant for use with arterial or cavity injection for controlling formaldehyde dehydration. The most efficient chemical yet compounded to reinforce the tissue to counteract dehydration, burning, browning, parted lips and eyes, or other undesirable tissue reaction to formaldehyde. A sufficient amount of preservative chemical contained in Epic Conditioner, enhances the ability of arterial fluid to diffuse and permeate the deepest tissue. The qualities of Epic Conditioner are so well established that even some of the competition recommends it. 24 pints per case.

[Click Here To Download SDS Sheet](#)

CHFA3040
ESCO LITHOL ARTERIAL FLUID -32
INDEX

A specialized arterial fluid for the extreme embalming case. Formulated for autopsied, electrocuted, frozen, or any case which is difficult to firm, Lithol is the essential fluid for every embalming room. It has fast, complete saturation and penetration of the tissue and is compatible with any other fluid. Lithol C/R imparts a more vivid color and is preferred by the embalmer, which desires cosmetic effect from arterial injection, rather than external application. This arterial fluid produces a desired firmness result and is guaranteed to yield a case free of post-embalming concerns. As with all difficult cases ESCO recommends a pre-injection of Drainage Chemical and Sofner for systemic clearance of stain and discoloration. Followed by treatment with one of the Lithol fluids. 24 pints per case.

**SANV10174
ESCO SAN VEINO SPRAY**

An essential for all first calls and removals. For spraying the nostrils and mouth, a powerful but effective spray to attack vermin. Also effective against skin slip, can be sprayed on gangrenous areas. Ideal for spraying the oral cavity of those cases suspected of the tubercular bacterium.
7 Ounce spray can.

[Click Here To Download SDS Sheet](#)

**CHFLFC82
FRIGID CAVITY KING CAVITY FLUID -25 INDEX**

When the security of plenty of formaldehyde and good penetration is desired, we recommend Cavity King. At 25 index this cavity fluid furnishes excellent preservative power to protect against visceral putrefaction and odor development. Combined with a particularly effective penetrant, the formaldehyde in Cavity King can reach the hard-to-get spots to assure the embalmer of well preserved cavity areas and reduced risk of complications. Cavity King can also be used for treating infant cases where arterial embalming is difficult to accomplish. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFLF78
FRIGID TISSUE GUARD ARTERIAL
-32 INDEX**

Tissue Guard 32 Plus has been reformulated as a result of a recent finding that the chemical ethylene dichloride is not safe for septic systems. This chemical has been removed from the fluid and the name has been changed to Tissue Guard 32. If your prep room is attached to a septic system then you should use this fluid in place of 36 Plus. The effect of a special blend of humectant chemicals and water-soluble lanolin modifies this 32 index arterial fluid so that the body retains some flexibility and natural feel. Its special dye system, the TISSUE GUARD SYSTEM, is designed to give a warm, even cosmetic effect; not the harsh effect sometimes obtained using unmodified dyes. The wetting agent assures thorough distribution and deep penetration of body tissues for lasting preservation. 24 pints per case. [Click Here To Download SDS Sheet](#)

**CHFLF30
FRIGID 36 PLUS ARTERIAL FLUID -33
INDEX**

If your prep room is attached to a septic system you should use TISSUE GUARD 32 in place of 36 Plus due to the fact that ethylene dichloride has been deemed unsafe for septic systems. 36 Plus is our best selling fluid. It is a high index general purpose arterial fluid that assures preservation and pleasing results with both normal and difficult cases. Its special blend of penetrants helps the formaldehyde reach all parts of the circulatory system assuring thorough tissue saturation and complete preservation. 36 Plus combines the use of unique chemicals which modify the effect of formaldehyde and retain moisture so that a firm body is produced. The Stop also assures deep tissue penetration to help preserve frozen, decomposed, and other difficult cases. 24 pints per case. [Click Here To Download SDS Sheet](#)

**CHFLF10
FRIGID NATURAL TONE ARTERIAL
-20 INDEX**

Natural Tone is a 20 index arterial fluid which furnishes a life-like skin texture and color. Containing silicone, Natural Tone penetrates amazingly well. The silicone combined with a mild but very effective buffer system results in an excellent and uniform cosmetic effect. The feel of the skin is soft, smooth, and natural. Not only does Natural Tone produce an especially pleasing cosmetic effect but its unique blend of silicone, buffers, and humectants result in a mildly firm body with a smooth, moist feel. Preservation is assured because Natural Tone penetrates and distributes so evenly and well. Preservation is also assured because it utilizes formaldehyde, the most effective embalming preservative, as its primary ingredient. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFLF15
FRIGID PERFECT TONE ARTERIAL
-20 INDEX**

Perfect Tone arterial fluid is our answer to a low formaldehyde content arterial that gives a soft, smooth cosmetic effect and a thoroughly embalmed body. An 18 index fluid, Perfect Tone combines the effectiveness of formaldehyde with the distributing and modifying effects of silicone and lanolin. The soft, pastel coloring and uniform distribution are prime characteristics of good embalming. The tissue is moist and life-like with a soft to medium firm texture. Dehydration is not a problem with Perfect Tone. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFLFS90
FRIGID WATER CLOT GUARD CO-
INJECTION**

Frequently the cause of a blotchy appearance and fading color, hard water that exceeds 80 ppm calcium carbonate cannot be neutralized by the chemicals in arterial fluid alone. Hard water salts work against the embalmer in several ways. They react with some of the dyes frequently used in arterial fluids to reduce or eliminate their color. Calcium ion is required for blood clotting. In addition to its ability to counter the effects of hard water salts and prevent clotting, Water/Clot Guard has the ability to activate glutaraldehyde. Glutaraldehyde functions best at a pH of 8 to 8.5. Water/Clot Guard, because of the alkaline nature of its components, can raise the pH of the mix to which it is added to the proper pH range. 24 pints per case. [Click Here To Download SDS Sheet](#)

**CHFLF76
FRIGID RIGID ARTERIAL FLUID -35
INDEX**

Frigid Rigid is a 35 index arterial fluid designed to furnish a firm body. It includes a unique blend of buffers, humectants and plasticizers to help modify the harshness of the formaldehyde. Rigid features a very effective surfactant for thorough distribution and deep penetration of the body tissues. Besides being excellent for “normal” cases, it is essential for the treatment of cases where decomposition is advanced or for cancer cases where nitrogenous body wastes have accumulated and tend to neutralize the action of the formaldehyde. It is the fluid of choice for cases when there will be an extended gap between death and burial. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFLFC75
FRIGID 5-PURPOSE FUMELESS
CAVITY FLUID**

Along with its excellent penetration properties, 5-Purpose Cavity combines the use of proven disinfectants, deodorizers, and preservatives to form a superior external pack. Used as a surface pack it quickly reaches the areas where decomposition is taking place. Its chemicals then act to neutralize the sources of odor and putrefaction and effectively preserve the tissue. 5-Purpose Cavity also works well as a bleach and is much safer to work with than the usual phenol-containing bleaches. Because of the use of several proven disinfectants and preservatives, its formaldehyde level can be kept low. This means the skin will not tend to pucker as with cavity fluids containing higher indexes. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFLFC80
FRIGID CAVITY 55 CAVITY FLUID -8
INDEX**

Cavity 55 gives the embalmer a low odor, formaldehyde containing cavity fluid with especially good disinfection and deodorizing capability and excellent penetration. Combining the action of four proven preservatives and disinfectants, Cavity 55 quickly penetrates to the areas where putrefaction and odor production are taking place and stops them in their tracks. With the preservative and disinfection actions of formaldehyde as a base, Cavity 55 also takes advantage of broad spectrum disinfection, the sporicidal properties of glutaraldehyde and the action of two additional disinfectants. The result is a potent cavity fluid that does not generate unpleasant formaldehyde vapors under normal conditions of use. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFLF72
FRIGID X-20 ARTERIAL FLUID -20
INDEX**

A 20 index arterial fluid, X-20 provides a soft but well-preserved and life-like feel and appearance to the body and skin. X-20 contains six ingredients, including silicone oils, which modify the harsh effects of formaldehyde. The embalmer can be sure of both an excellent cosmetic effect and a particularly pleasant result - a thoroughly embalmed body of mild firmness and uniform color with a natural, moist feel to the skin. Mildly buffered to help keep the formaldehyde base at optimum preservation power, X-20 penetrates and distributes well. The preservatives and modifiers are carried into the tissue to give it a plasticized feel with the proper formaldehyde content for good preservation. 24 pints per case.

[Click Here To Download
SDS Sheet](#)

**CHFLF68
FRIGID STANDARD ARTERIAL FLUID
-32 INDEX**

For the most difficult cases we recommend 32 index Standard arterial fluid. This fluid contains a high level of formaldehyde, the most effective and efficient preservative chemical available. Standard also is formulated with a generous amount of formaldehyde modifier and humectant to control dehydration. Because of these modifiers and the inclusion of unique salts and buffers, Standard can be used for routine embalming as well as for the most difficult cases. The addition of special salts enhances the action of Standard so that its preservative power exceeds that normally expected of a 32 index arterial. 24 pints per case.

[Click Here To Download
SDS Sheet](#)

**CHFLF60
FRIGID EOTONE ARTERIAL FLUID -27
INDEX**

When a slightly firmer body is desired or a case calls for a little more preservative than is normally available in a 20 to 25 index fluid, Eotone arterial fluid is the answer. Eotone is a 27 index arterial with good preservative power. It contains buffers and humectants to moderately modify its formaldehyde level. Eotone gives an even, light pink coloration to the skin. 24 pints per case.

[Click Here To Download
SDS Sheet](#)

**CHFLFS96
FRIGID LEAK GUARD MOISTURE
REDUCER**

Leak Guard is a unique supplemental fluid designed to prevent leakage of body fluids and to pull excessive moisture from the body. Leak Guard combines an effective pore closer with a proven moisture reducer and tissue hardener. Badly bloated bodies frequently leak through the pores, complicating their preservation and the layout procedure. Packed 12 pints per case.

[Click Here To Download
SDS Sheet](#)

**CHFLFS92
FRIGID FREE FLO DRAINAGE CO-
INJECTION**

A unique co-injection, Free Flo is designed to improve distribution and drainage by freeing capillaries of congealing blood. Free Flo, when used with an arterial fluid, markedly improves the ability of the diluted arterial to displace the blood and allow the preservative chemical to do its work. Because Free Flo enhances the distribution of the arterial into all areas of the body, there results a uniformly embalmed body and an even dye coloration on the surface of the body. A mildly alkaline chemical, Free Flo buffers the arterial to an effective pH - no more grey bodies. Its special components also act to soften the potentially harsh effects of formaldehyde apparent in some arterials. This gives the body a more natural feel, and helps it retain a proper moisture level.
Packed 12 bottles per case.

[Click Here To Download
SDS Sheet](#)

**CHFLF35
FRIGID FLO-TONE ARTERIAL FLUID
-25 INDEX**

Containing three disinfecting and preserving agents, 25 index Flotone arterial fluid gives the embalmer the perfect tool for a medium firm body. Modifying chemicals work to ease the harsh effect of formaldehyde and prevent dehydration. Special buffering materials assure proper distribution and hold the pH close to the optimum for good formaldehyde action. Flotone's blend of dyes furnish a natural skin tone without blotching. The embalmer can have confidence in obtaining preservation with medium firming, protection against dehydration, and a pleasant skin color. 24 pints per case.

[Click Here To Download
SDS Sheet](#)

**CHFLFS91
FRIGID PLASMA FLO DRAINAGE
FLUID**

For embalming bodies when congealed and clotted blood is anticipated, Plasma Flo is the chemical of choice. For many years embalmers have relied on Plasma Flo to clear and prepare the vascular system for optimum fluid distribution and penetration. Its special alkaline formula loosens and breaks up coagulated blood so that drainage can be established even in difficult cases such as burned or frozen bodies, or when extensive chemotherapy has taken place. As a co-injection fluid, Plasma Flo, can be used with all aldehyde type arterials to enhance and improve drainage, distribution, and penetration. The overall result is an even cosmetic effect and a milder action by the arterial fluid. Packed 12 bottles per case.

**CON110
CONTACT EMBALMING
DISINFECTANT**

One of the strongest embalming sprays available today. Use for bedsores, gangrene, putrefactive areas, cancer. Embalms and deodorizes on contact. 16 Ounce Bottle.

[Click Here To Download
SDS Sheet](#)

**CHFLFS89
FRIGID TISSUE AID CO-INJECTION**

For emaciated cases we recommend Tissue Aid. This supplemental embalming fluid contains special moisture retaining compounds known as natural colloids. Natural colloids are particularly effective at working from within a body to recover the proper hydration level in the cells so that the body's natural appearance and form are restored. Sunken tissue is filled out and moisture loss from the body is retarded. The skin also regains a soft, smooth texture and more natural feel. Tissue Aid is particularly useful in holding the moisture level under low humidity conditions which would result when the air conditioning or the heating system is running almost continuously. It also modifies the harsh action of formaldehyde to furnish a more pliable and life-like feel to the body. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**COLOR08
FRIGID ROSE COLORTONE FLUID DYE**

Rose Colortone Dye is a concentrated dye additive to be used when additional color is desired during arterial injection. While Rose Colortone Dye can serve as a tracer dye to indicate distribution of fluid throughout the body, it is also a staining system. The resultant pink color will be retained by the tissue over a period of time. Rose Colortone Dye is compatible with any arterial fluid. Plastic Pint Bottle.

[Click Here To Download SDS Sheet](#)

**CHFLFC70
FRIGID PREMIUM CAVITY FLUID -7 INDEX**

This fluid contains the chemical ethylene dichloride which has recently been deemed unsafe for use in septic systems. If your prep room is attached to a septic system you should use CAVITY 55 in place of Premium Cavity. Premium Cavity brings together the action of five potent preservatives and disinfectants resulting in an outstanding fluid. Few cavity fluids penetrate as well and as effectively and can be trusted to reach difficult areas. For broad spectrum disinfection and potential sterilization, glutaraldehyde has been included in the Premium Cavity formulation. Premium Cavity also contains Stop, which along with the glutaraldehyde will eliminate tissue gas. 24 pints per case. [Click Here To Download SDS Sheet](#)

**CHFLF20
FRIGID LANOL-TEX ARTERIAL FLUID -22 INDEX**

When the soft, smooth skin texture supplied by lanolin is desired, Lanol-Tex arterial fluid is the choice. Containing one of the highest amounts of lanolin available in an arterial fluid, Lanol-Tex is an especially good fluid for dry, emaciated cases as well as those that may need some extra protection from dehydration. Besides the high lanolin content, Lanol-Tex also contains two other excellent modifiers that provide further protection from dehydration and furnish a more pliable tissue texture. 24 pints per case.

[Click Here To Download SDS Sheet](#)

**CHFLFS85
FRIGID PREMIUM JAUNDICE CO-
INJECTION FLUID -8 INDEX**

Premium Jaundice brings together three factors found to be effective with jaundiced bodies. 1) It contains a chemical which bleaches the color of bilirubin, the pigment responsible for the yellowing of the tissue. 2) It contains a generous number of agents designed to promote distribution throughout the body, and thus facilitate the flushing of yellow pigment from the body. 3) It also contains a low level of formaldehyde (8 index) so that large volumes of diluted fluid can effectively be used to flush the body. In addition, Premium Jaundice contains a special chemical to counter the effect of formaldehyde on bilirubin, which many embalmers feel is the cause of green bodies which sometimes develop after embalming. Packed 24 bottles per case.

[Click Here To Download
SDS Sheet](#)

**CHFLFS87
FRIGID COLOR GUARD 1 JAUNDICE**

Color Guard I is a new idea in jaundice treatment. Not just a mask or highly buffered arterial fluid, Color Guards chemicals actually react with bilirubin to change its yellow coloration to a red or rosy tone. The yellow of jaundice can be significantly reduced, especially in the visible areas of the body. However, in cases of black or green jaundice where the bilirubin/biliverdin has diffused into the tissue, Color Guard I may be ineffective. Packed 24 bottles per case.

[Click Here To Download
SDS Sheet](#)

**CHFLFS94
FRIGID HUMECTANT CO-INJECTION**

For cases showing signs of dehydration the co-injection to choose is Humectant. An emulsion of several special oils and moisturizing agents, Humectant helps to fill sallow tissue and return a life-like appearance and skin texture. Wrinkling is controlled and a proper moisture level is restored. The moisture loving chemicals in Humectant work to prevent further dehydration by retarding the escape of water from surface tissues and restoring the moisture level in deeper tissues. In addition to its ability to rehydrate tissue, Humectant modifies the harsh action of formaldehyde and softens the color of the dyes used in arterial fluids. A more pliable and life-like tissue results with an excellent cosmetic effect. Packed 12 bottles per case.

[Click Here To Download
SDS Sheet](#)

**CHFLFC90
FRIGID DRY GUARD CAVITY FLUID
-21 INDEX**

Dry Guard's special formula results in excellent penetration and preservation of tissue. The affected tissue is very firm and dry, assuring the embalmer that the tissues of the cavities are well preserved. The possibility of missed areas within the cavities, and subsequent decomposition, is reduced by the penetrating ability of the fluid. As a surface pack, Dry Guard helps to firm and preserve areas of skin slip and spongy tissue. The combination of its penetrating power and its ability to reduce moisture in tissue makes it outstanding for this purpose among cavity fluids. Dry Guard, when used externally or just under the skin, will help to bleach darkened areas and reduce swollen areas. 24 pints per case.

**CHFLFS93
FRIGID SOLVOL DRAINAGE PRE-
INJECTION**

When a mild fluid is needed to flush out the arterial system, we recommend Solvol pre-injection fluid. A 6 index fluid, Solvol is excellent for clearing the body to allow for better distribution and penetration of an arterial fluid. In addition to its use as a pre-injection, Solvol is useful as a bleaching agent. Because of its low formaldehyde content and proper modifiers, Solvol is an excellent fluid for embalming infants. The delicate tissue receives adequate preservative in an overall mild formulation. If death is due to contagious disease or has involved renal failure, a higher index fluid would be advisable.

Packed 12 bottles per case. [Click Here To Download SDS Sheet](#)

**CHFLFC95
FRIGID PHAROS CAVITY FLUID -36
INDEX**

Pharos Cavity fluid is our highest index fluid (index 36). Provides rapid set-up and is extremely effective on posted cases. Formulated with additional organic germicides. Used by embalmers who prefer the exceptional tissue firmness provided by high formaldehyde content. Contains phenol. [Click Here To Download SDS Sheet](#)

**BONE711
BONE SEPARATOR-DARK BROWN
HARDWOOD**

Great for a number uses. Perfect amount of flexibility. Lightweight and durable.

Funeral Equipment & Supplies

FLEX100S **SEVEER FLEX SERIES FLEXIBLE STRETCHERS** **"OPTIONS AVAILABLE"**

Perfect for moving patients from difficult situations and locations.

Covered FLEX 5 MODEL has Zippered Top flap of 10 oz vinyl coated nylon with Top Cover Hood for discreet transport of body.

Three cross web straps secure the patient within the wrapping, flexible stretcher.

Five enclosed wooden slats allow support during use.

Storage pockets at both ends.

Opens to 6' 6" Length x 28" Width.

STRE135 **FERNO MODEL 135 COMBINATION STRETCHER & BODY BAG**

This combination flexible stretcher and body bag folds compactly and completely conceals the body.

The two-ply, vinyl-coated nylon construction resists stain, does not absorb moisture or body fluids, is fire resistant, and is easily cleaned with a damp cloth.

The combo features a full plastic zipper, six durable, permanently-blocked formed handles, and includes a water-repellent top that closes with a sturdy slide fastener.

Available in burgundy.

STRE131 **FERNO MODEL 131 FLEXIBLE STRETCHER**

Excellent and convenient for difficult or emergency removals.

Durable and strong 18 Ounce Nylon construction.

STRE11T **FERNO MODEL 11-T FIRST CALL STRETCHER**

The Model 11-T Stretcher is sturdy and lightweight and has an innovative track system that allows removal down stairs with ease and more control. It has two front wheels and a narrow track-to-ground clearance for easy maneuvering over all surfaces, even with the tracks deployed. Folds in half when not in use for easy carrying and storage. Includes two 5" quick release patient restraints, a footrest, and a carrying case. Intended for Mortuary use only.

STRE11 **FERNO MODEL 11 FOLDING STRETCHER**

Great for emergencies, keep one in each First Call vehicle.

Folding Wheels and Legs for easy storage.
