- Dispatched within 24 hours
- In stock in Australia

Champagne Blue Shaft Skinz

RRP Price : \$19.50

Legends Price : \$9.50

The overall gradation is a little like a late afternoon sky with the white lower end giving way to a beautiful 'sky' blue that intensifies as it goes up the shaft to a quite dark blue. And if you stick with that metaphor then just imagine there are psychedelics bubbles floating up into the sky.

There are 4 shaft skinz in each pack.

- Customise your shaft in a few minutes.
- Keep your golf clubs looking and feeling brand new. Protect your golf clubs from nicks and scratches.
- Easy to apply and remove
- They come in a range of colours and textures to choose from
- They do not impact the efficacy of your golf club
- 4 Skinz in each pack

Get Golfed Laser Rangefinder

RRP Price : \$140

RRP Price : \$12.50

Legends Price : \$7.50

The aiming tool ball marker will help you find right line on green

Golf Swing Corrector Laser Plane Trainer

RRP Price : \$25.95

Legends Price : \$15.95

If you've ever spoken to a pro or had golf lessons, you'll know just how crucial it is that your golf swing is "on plane".

By simply placing another golf club, an alignment rod or drawing a chalk line on the ground or driving-range mat, the Laser Plane Trainer will instantly show you whether you're swing is over or under plane and you will very quickly pick up the feel of that on plane swing.

Simply attach to the bottom of your golf club and switch on. The Laser Plane Trainer will give you 3 reference points during a full swing to see if you're on plane. The backswing, the downswing and the follow through.

This training aid also includes a **BUTTON PROTECTOR** that clips onto the product to prevent the laser turning on whilst in your packet/bag when not being used and draining the batteries.

Easily attaches to almost any golf

Ultra compact size and lightweight sleek design.

Specification:

Size: 60mm x 13.5mm

Weight: 29g

Batteries: 3 x LR44 Button battery included (also known as AG13)

Power: <5mW

Attention: The device launch a laser spot, Not a laser line!! the display of the laser may be different under different lighting conditions. Using it indoors will appear brighter..
